

SMART TACTICAL ADVANCED ROCKET STAR-80L

Type: ROCKETS AND MISSILES

The weapon is designed to combat small fixed and mobile ground targets as APC's, tactical vehicles, command points, shelters, other unarmoured and armoured means, resistance points and river boats.

The missile can be delivered by grounded or heliborne weapon systems and guided until the target from launching platform or from an advanced

designation team. Accuracy and controlled blast effects allows this weapon to be widely used in urban warfare and especially in anti-terror operations.

Technical characteristics:

Caliber	80 mm
Length	1800 mm
Weight	13.5 Kgs
Warhead weight	3 Kgs HEBF
Range	1000 ÷ 6000 m
Accuracy	1.5 m CEP

The launcher can be maintained in service for 20 years and the missiles for 10 years.

Primary platforms

- Attack and support helicopters
- Light APC's and unarmoured tactical vehicles
- Man-portable (detachable) firing post (optional)
